

TO & E

NDAK ROUGH RIDER PLATOON

A man of singular vision and determination, Major Helmut Von Loetingen has made a career for himself by driving the undriveable while achieving every tactical objective set out before him.

Panzermeister often finds himself unable to see eye to eye with his superiors, which has led to him receiving more and more dangerous missions as the war drags on. You won't find him or his men complaining, though. They're happy as long as they have a target and plenty of ammo.

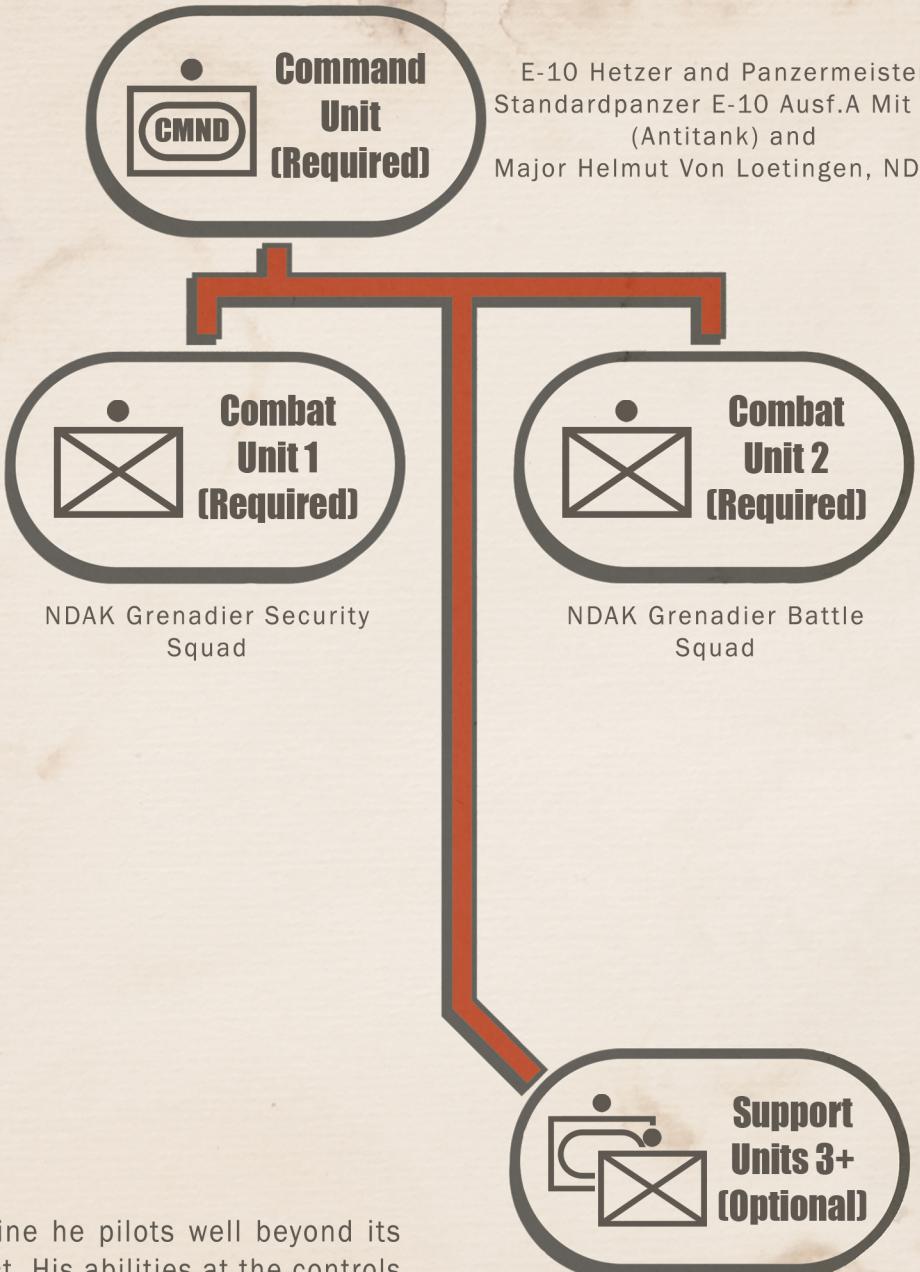

PLATOON ADVANTAGE: BABYLON DRIFT

Panzermeister pushes any machine he pilots well beyond its expected tolerances to great effect. His abilities at the controls of whatever vehicle he pilots allows him to provide pinpoint support to those soldiers working in a danger close capacity.

While within Range 1 Panzermeister's E-10 Hetzer, both the NDAK Grenadier Security Squad and the NDAK Grenadier Battle Squad gain a cover save.

SUPPORT UNITS

While the NDAK Rough Rider Platoon might be small when compared to other NDAK platoons, it more than makes up for its size with the sheer amount of varied firepower it can bring to bear on a target, especially at close range. For even faster deployment into the hottest of zones, the Schutzenpanzerlaufer VI-series walker is the transport vehicle of choice for NDAK Grenadier units within the platoon.
